Diaper Need FACT SHEET

DIAPER NEED IS REAL.

The lack of a sufficient supply of diapers to keep a baby clean, dry and healthy.

WHAT IS DIAPER NEED?

Diaper need is when families cannot afford enough diapers to keep their babies clean, dry and healthy. It affects families in every community—urban, suburban and rural.

WHY CLEAN DIAPERS MATTER

Clean diapers help prevent diaper rash, infections and other serious health issues. Diapers also support better sleep, comfort and overall well-being for babies.

THE FAMILY IMPACT

Diapers can cost \$80–\$100+ per month, per child. When families cannot afford diapers, they are forced to make impossible choices between diapers and other basic needs like food, housing or transportation.

WORK & CHILDCARE

Lack of diapers can keep parents from going to work or school and can make it difficult to find and maintain childcare.

DIGNITY MATTERS

Every baby deserves the chance to thrive. Access to diapers ensures babies have the dignity, comfort and care they deserve.

DID YOU KNOW?

1 in 2 families struggle to afford enough diapers to keep their babies clean and dry.

3 in 4 parents report missing work or school because they don't have enough diapers.

Diaper need is linked to poor health outcomes including infections, stress and unnecessary hospital visits.

More than **1 in 3** families who experience diaper need earn too much to qualify for public assistance.
